## PRESIDENT WINS PEOPLE

His Captivating Manner Charmed The Crowd Turned Out To Greet Him.

HE WAVED HIS GOOD-BYES.

After Ten Minutes Spent At The Reno Depot Special Train Left For Carson But Returned Later.

Reno, Nev., May 19.—The presidential party arrived at Reno at 7:30 o'clock this morning and 10 minutes later was on the main line of the Virginia and Truckee road on their way to Carson. While the president's train stopped here he came out on the back platform of his car and pleasantly greeted the immense throng that had assembled to give him a true Nevada welcome. The crowd cheered and cheered, and was kept in good humor by the president talking to them. The president did not attempt to make a speech, but talked first to one and then to another. When his train started he kept waving his hand and saying: "Good-bye, good-bye." His action won the people to him in one solid mass.

His train returned from Carson at 11:10 o'clock. His party were soon seated in carriages and driven to the courthouse where the president spoke.

After he had spoken at the courthouse he was driven about town for about 10 minutes, spent 10 minutes in the chamber of commerce and was then driven to the state university where he spoke to 40 students.

He was driven to his train and was off for the west again.

### PRaise FOR CARSON.

Roosevelt Said The Nevada City Was The Most Handsomely Decorated Of Any.

Carson, Nev., May 19.—President Roosevelt reached here at 9 o'clock this morning. The city was in gala attire and members of the presidential party stated that the capital of Nevada was the most handsomely decorated town of its size that had been visited. The morning was an ideal one. The weather which had been threatening for the past few days, had cleared up, and the sun was shining and warm enough to be comfortable. Governor John Sparks and Mayor Mackey, the mayor of Carson City, met the president at the station and accompanied the party to the city. Carriages were waiting at the train, and the entire party was driven to the state capitol where a platform had been erected. The portico of the capitol was circled with ribbons, forming an arch over the desk of which the president spoke. Over this was stretched a banner with the words, "Nevada Honors the Hero of San Juan." Among the decorations were two fine mounted specimens of buffalo heads raised on the farm of Governor Sparks.

The half-mile drive from the depot to the capitol was a solid mass of humanity, and it is calculated that fully 15,000 people gave the president welcome as he drove down the street leading to the capitol park. The grounds were crowded to their utmost capacity, but as the police had worked in accordance with instructions there were no accidents, and everybody had a chance to see the president and hear his 20-minute talk. He dwelt long on the possibilities of irrigation and forestry. After the speech the president and party were given a short ride about the city, and with a very short wait at the depot the train, consisting of six cars, was pulled by three locomotives over the steep grade leading from the city.

### PRESENTED WITH QUARTZ.

Grass Valley, Calif., May 19.—Two thousand people from Grass Valley and

the surrounding country journeyed to Conflux today to greet President Roosevelt and witness the presentation of a handsome box of quartz specimens and nuggets mounted on a draped truck. Superior Judge Nillon presented the president with the box of quartz. The president accepted the box and made a brief address, thanking the people of this vicinity for the gift.

### IS NEARING OREGON.

President Was In Sacramento Last Night and Tonight Will Be In Ashland.

Sacramento, May 19.—President Roosevelt arrived in Sacramento this evening and was met by Governor Pardee, Mayor Clark, the citizens' committee and one of the largest crowds that has ever been seen on a similar occasion in Sacramento. After a review of the school children, the president drove to the Sutter Street club where he dined. Afterwards he drove to the state capitol building and delivered an address to the assembled citizens. At the conclusion of his remarks the president drove to his train and later started on his journey toward Portland. The train will reach Ashland at 5:45 p. m. tomorrow.

### STORM DESTROYS CATTLE.

Northern Montana Desolated and the Loss Will Be Millions.

Great Falls, Mont., May 19.—The heaviest sheep and cattle loss in the history of Montana, the damage of which has been raging for the past three days. In some sections fully 90 per cent of the sheep on the ranges have perished. Three herders, at least, have wandered away in the blinding storm and have been frozen to death. Two more in the Shelby Junction country are missing and there is no hope that they can be found alive. Herders have abandoned their flocks on every hand and have fled for safety to the settlements and ranches.

Nothing like the fury of the storm has ever been witnessed in northern Montana. Of a consignment of 600 cattle bound for Havre all but five were found frozen stiff.

### FEELINGS WILL BE FORWARDED.

Mass Meetings Resolve as to the Kishinef Massacres.

Washington, May 19.—Some of the resolutions adopted last Sunday by the various mass meetings and organizations respecting the Kishinef massacre reached Secretary Hay today. They will receive careful consideration and it may be that some way will be found, though none is now clear by which the substance of these resolutions can be communicated to the Russian government as evidence of the feeling aroused in the United States.

## TROUBLE IN NAVY YARDS

Unions Are Trying To Tie Up Workmen In The Employ Of The Government

### DEPARTMENTS ARE ANNOYED

Police Accused Of Attempting To Intimidate Strikers In Returning To Their Work.

New York May 19.—The officials at the Brooklyn navy yard are somewhat apprehensive of trouble on account of information received by them that a determined effort is being made to get every workman in the yard into a labor union. For the last month the unions have caused almost constant annoyance to the heads of the various departments but have not been successful in tying up any of them completely. It is believed that the union men are attempting to get all the workmen into their organizations in order that a demand may be made for recognition of the unions.

President Lawrence of the Excavators and Celler Diggers' union has complained to Deputy Police Commissioner Piper that policemen are going around the Italian colony at St. Marks and Troy avenues Brooklyn, attempting to intimidate the strikers into going back to work. It is said that this is being done in the interest of a certain contractor. Commissioner Piper said that if a specific complaint was made against an policeman he would consider it.

### MR. TULLOCH TALKS BACK.

Claims That He Knows About Postal Affairs In Porto Rico.

Washington, D. C., May 19.—Mr. Tulloch was in Washington today and in an interview said:

"I notice Mr. Payne observed that I could know nothing more about postal service in Porto Rico than about the postal service in Chicago. Perhaps Mr. Payne is not aware that as cashier of the Washington postoffice no postmaster there could ever secure a box of matches that I did not pay for. Money for the salaries of the postmasters, clerks, carriers, route men and other employees for every office in the island passed through my hands and the postmaster of Washington city was responsible on his bond for the proper disbursement of it."

He agreed to pay the costs if the case was dismissed, and further agreed to allow his wife to secure a divorce. Judge Goodman regarded this as the best means of settling the family squabble and Wolff was turned loose.

New York May 19.—The ill luck which has followed the Constitution ever since her launching two years ago is still with her.

She arrived from New London yesterday and during the progress of the hauling her out of the water the yacht keeled over with such force that some of the bilge blocks went almost through her thin bronze underbody.
